**MODEL BOL 4
1/2 H.P. RESIDENTIAL
CHAIN DRIVE OPERATOR**

OPTIONAL EXTRAS

EMERGENCY KEY RELEASE
Used in case of motor malfunction or power failure, especially if there is no other access into garage.

KEY SWITCH ENTRY
Allows entry into garage from outside by a keyed lock if Hand Transmitter is not available.

PHOTO EYE PROTECTION
Silent Guard non-contact reversing system transmits an invisible light across the inside of the garage door opening. Added safety and protection against operations while car or person is in door opening.

WIRELESS KEYPAD
Keypad with cover can be programmed with codes from 1 to 6 digits, for maximum security. Includes back-light for your convenience when used in poor lighting situations.

The BOSS operators and components have been engineered to the highest standard for optimum performance.
